

# EXTENSIONS TO MAKE GOOGLE MEET BETTER!!

By Mrs. Guillen

- ❖ **Grid View**
  - Makes it possible to see all your students on the screen at the same time.

- ❖ **Nod**
  - This extension adds Facebook-like reactions to Google Meet. Students can clap, raise hand, and other emojis during your session without interrupting.

- ❖ **Meet Attendance**
  - This allows you to record attendance instantly to Google Sheets. Make sure to hit the attendance button before you end class.

- ❖ **Push to talk**
  - This one is recommended for students who struggle to find the mut/unmute button. With a push of the space bar, they can unmute themselves.

- ❖ **Dulless window splitter**
  - This extension allows you to split your screen into 2 windows so you can share screen and monitor students on the other screen.

- ❖ **ScreenCastify**
  - This extension is good for recording your lessons while you are on the computer.
- ❖ **PDFCandy**
  - This isn't an extension, but I use it to convert PDF worksheets into images to make interactive lessons on Google Slides.
